Discover the Difference

Our approach to childcare is different than most childcare centers. We seek to educate and care for the whole child, in a nurturing and loving, Christian environment.

Our curriculum is designed to motivate and inspire children to use their unique talents and abilities, and recognize them as gifts from God.

We offer programs for children 3 to 4 years. GCS offers full or part-time childcare along with before and after-school programs.

Safe and secure Environment

In addition to providing a healthy, loving, and Christian environment for our children, we want to ensure that our children are protected from outside intrusion.

To guard against this, we have installed video cameras at key entrances and exits, hallways, stairways, and remote locations. These cameras constantly record and monitor all activity in these areas. In addition, a camera console, with both audio and video capabilities, is installed at each security door. All cameras are continually monitored by office personnel in three separate locations throughout the building.

Any visitor to the building must speak to one of these individuals before they can enter the building.

our commitment to our families

- To provide guidance that will help children adjust to adults other than their parents and to children of their own age.
- To share religious, social, and cultural values with children through stories, songs, verses, prayers, playing, and group experiences. The atmosphere is distinctly Christian, but non-denominational.
- To assist in the development of the skills and aptitudes of each child in a learning environment.
- To provide safe and loving care for children while they are away from their parents as a supplement to their family life.
- To offer a daily program that provides a constructive experience for each child through planned activities, creative and free play, music, stories, art projects, and developmental care.
- To share God's love through incorporating Bible stories, character building stories, and Scripture memory in the curriculum.
